RECIPE: STEVE'S GUACAMOLE

- 6-8 avocados
- 1 medium yellow onion, - chopped
- 6 cloves chopped garlic
- 1 or 2 tomatoes
- 1 lemon and/or 1 lime
- 1/2 cup chopped fresh cilantro
- 2-4 jalapeños
- salt

Halve avocados, remove pit, and scoop from the skin into a large mixing bowl. Quarter the tomatoes and remove seedy bits to keep the guacamole from getting too runny. Roughly chop tomato and add to the bowl. Add yellow onion and garlic. Remove seeds from the jalapeños to keep the heat down. Chop the jalapeños well and add to the bowl. Add cilantro, 1 TBSP of lemon and/or lime juice and 1 tsp salt. Mix. Taste and season...salt will offset the lemon, lemon will smooth out the salt, jalapeños will keep your guests from devouring the guacamole immediately. Served chilled.
